Wincheap Foundation Primary School Online Safety Policy

1. Policy Aims

- This online safety policy has been written by Wincheap Foundation Primary School involving staff, pupils and parents/carers, building on the Kent County Council (KCC) online safety policy template, with specialist advice and input as required.
- It takes into account the DfE statutory guidance “[Keeping Children Safe in Education](#)”, [Early Years and Foundation Stage](#) and the [Kent Safeguarding Children Multi-Agency Partnership, \(KSCMP\)](#) procedures.
- The purpose of Wincheap Foundation Primary School online safety policy is to:
 - Safeguard and protect all members of Wincheap Foundation Primary School community online.
 - Identify approaches to educate and raise awareness of online safety throughout the community.
 - Enable all staff to work safely and responsibly, to role model positive behaviour online and to manage professional standards and practice when using technology.
 - Identify clear procedures to use when responding to online safety concerns.
- Wincheap Foundation Primary School identifies that the issues classified within online safety are considerable, but can be broadly categorised into four areas of risk:
 - **Content:** being exposed to illegal, inappropriate or harmful content. For example pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism.
 - **Contact:** being subjected to harmful online interaction with other users. For example peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.
 - **Conduct:** personal online behaviour that increases the likelihood of, or causes, harm. For example, making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying.
 - **Commerce:** risks such as online gambling, inappropriate advertising, phishing and or financial scams.

2. Policy Scope

- Wincheap Foundation Primary School believes that online safety is an essential part of safeguarding and acknowledges its duty to ensure that all pupils and staff are protected from potential harm online.
- Wincheap Foundation Primary School identifies that the internet and associated devices, such as computers, tablets, mobile phones and games consoles, are an important part of everyday life.
- Wincheap Foundation Primary School believes that pupils should be empowered to build resilience and to develop strategies to manage and respond to risk online.
- This policy applies to all staff including the governing body, teachers, support staff, external contractors, visitors, volunteers and other individuals who work for, or provide services on behalf of the school (collectively referred to as ‘staff’ in this policy) as well as pupils and parents/carers.
- This policy applies to all access to the internet and use of technology, including personal devices, or where pupils, staff or other individuals have been provided with school issued devices for use off-site, such as a work laptops, tablets or mobile phones.
-

2.2 Links with other policies and practices

9.5 Use of Generative Artificial Intelligence (AI)

Generative AI is a new field that has the potential to help lower teacher's workloads and enrich learning by generating lesson ideas, plans and some types of lesson content. However, it is a field that is still in its infancy. The government policy paper *Generative Artificial Intelligence in Education (Nov 2023)* acknowledges the opportunities but warns that having access to generative AI cannot replace having knowledge in our long-term memory. To make the most of generative AI, we need to have the knowledge to draw on. AI tools such as ChatGPT can make certain written tasks quicker and easier, but cannot replace the judgement and deep subject knowledge of a human expert. AI apps can only generate content from the pool of material they have been 'trained' on and, at present, can return incorrect results in whole or part. Therefore, just as with any other online content it is important for staff using such tools to thoroughly check any material produced to ensure it is correct and fit for the purpose they intend.
